gina Russell Elope to Jeffersonville, Where they Were Married

AT PRESENT WILL LIVE AT BREEDING.

Mr. D. Ward Denton, son of Mr. and Mrs. Lincoln Denton, of Somerset, who has made his home in Columbia for several years, a manufacturer of staves and a dealer in timber, and Miss Regina Russell, daughter of Dr. C. M. Russell, eloped, on last Wednesday morning, for Jeffersonville, Ind., where they were married some time during the day, returning to Columbia Thursday afternoon, taking rooms at the Hancock Hotel.

The couple have been going together for several months and to their most intimate friends their union was not a surprise, but the journey to Jeffersonville was, as there were no objections, as we understand upon the part of Dr. Russell nor upon the part of Mr. and Mrs. Denton, who were perfectly familiar with the courtship, the bride having visited the home of the groom's parent's, Somerset.

Since he became a resident of Columbia, Mr. Denton has so conducted himself as to meet the approbation of the entire community, and is quite popular with all the young people. cellent habits and with good health there is nothing in the way to sprevent him from making a happy home.

The bride is a young woman who has many friends, full of life, and at social gatherings makes every body feel perfectly contented. She is old enough, nearly twenty, to know the responsibilities of the step she has taken, and there is no doubt but she will make a most loving and devoted companion.

She and her husband have the best wishes of the entire News force. Mrs. Denton has a happy way of driving away blues and this office will miss her which at all times will doubtless be promised to love and cherish through

For the present the young couple will reside at Breeding, this county, where Mr. Denton is engaged in having staves bucked and dressed.

The four institutions that contribute to the highest attainment of Christian citizenship. Beginning at the Presbyterian Church at 7 o'clock. 1. The Home.

Z. T. Williams, H. C. Baker. Tuesday evening at the Methodist Church at 7 o'clock. 2. The School,

J. S. Chandler, C. C. Turner. Wednesday evening at the Christian Church 7 o'elock. 3. The Church,

G. P. Bush, Tobias Huffaker. Thursday evening at the Presbyterian Church at 7 o'clock. 4. The Press,

C. S, Harris, F. J. Barger. Friday evening at the Methodist Church at 7 o'clock.

5. Genera! Rally for better morals and better citizenship of the town.

By Volunteer Speakers. The week of prayer has been observed here for a number of years the first week in January each year with profit and spiritual uplifl. Opportu nity will be given each evening for volunteer talks. Each church is requested to provide music suitable for each evening. Every body is invited to attend these meetings and make them the best of any of the preceeding

Accidentally Shot.

Last Friday afternoon Mr. J. W. Coy and Mr. Jo Ed Flowers, both of this place, were out bird hunting together. They were on the farm owned by the Sheater boys, Mr. Flowers walking in front of Mr. Coy. Suddenly Mr Coy's gun fired, the whole load of No 7 shot striking Flowers in the back. He made a noise as soon as he received the wound and Mr. Cov and Jo Rosenfield, who was also in the same field, get to him as quickly as they could, and preparations were at once made to convey him home and physicians called. They found, upon examination, that

the wound was not dangerous, but stated that the patient would be quite sore for several days. There is a possibility of blood poison setting up, though such a turn is not expected. It was purely an accident, Mr. Coy not knowing what caused his gun to to fire. He and Mr. Flowers are best friends, and the occurrence is greatly

both parties throughout the town Yesterday morning, after a good night's rest, Mr. Flowers stated that he felt as well as he ever did, only experiencing a little soreness.

A SHREWD MOVE

By SAMUEL E. BRANT

"I wish Mary Blake to like you," said my fiancee to me soon after we became engaged. "If she approves I don't care what any one else thinks of you."

The remark occasioned the first chithat ran through me after receiving the announcement that Ellen loved me and would be mine.

Ellen Thornton and I had met in the summer at a mountain resort, and our engagement occurred in the winter. We lived in cities, and all I knew about her and her antecedents was that she came of an excellent family and was generally liked. I had never heard of her bosom friend, Mary Blake. But when we are congratulated upon the taking of a partner all our friends speak well of the person selected. I can remember congratulating a friend on his engagement with a girl I de-

I was not so infatuated with Ellen but that I would be glad to hear the truth about her, whatever that truth might be; but, realizing that no one would tell me the truth, I was quite willing to keep my eyes open that I might learn it by observation. The moment I met Miss Blake I saw by her manner that the approval hoped for by my betrothed was wanting. As love is a spark easily enkindled, so is under his command, and went on with antagonism, though in this case the his work. But neither he nor they antagonism came from Miss Blake to had any thought of using their weapme. I was indifferent to her.

of me when we were again alone to-"Very much," I replied with the

usual untruthfulness in such cases. "How does she like me?"

"She thinks you are splendid."

"You don't mean it!"

"Yes, and she predicts that we will

"Indeed!" "Only possibly for one thing."

be very happy together."

"What's that?" "Well, she says you have a very

that you'll lead."

through which the worm had crawled. the two rode on through the thick accomplished, the mate called the liv- carbon (or tungsten) in them is more I made no reply. Indeed, no reply was tropical foliage that lined the road ing around him and said there was needed. Miss Blake had thrown up without hearing anything more terriher first line of defenses. She had ble than the occasional growl of a prepared Ellen against transferring wild animal and were lulled to securithe influence exerted by her bosom ty by the frequent piping of birds. friend to her lover. I resolved to But when nearing the summit the lock horns with my enemy, but in such | blow fell. Ahead of them they could a way that Ellen would not realize see a ranch house, and from it emergthat I was doing so. But I proposed ed four men who had evidently seen to put Ellen in such a position that she them approaching and, mounting must decide between me and her bos-

I found an opportunity at the whist table. If one desires to pick a quarrel with a woman an excellent way is and the gewgaw adornments they wore to secure her for a partner, then point out her misplays. One evening when Ellen, her bosom friend, my chum, Jim Baxter, and I were together I proposed whist and insisted on having Miss Blake for my partner. By simply pointing out to her in the most delicate manner possible her bad plays I finally sent her out of the room in a huff. "What have you done?" exclaimed Ellen, aghast.

"Nothing of importance. She should be very much obliged to me for teaching her the game."

"You must undo what you have done at once.'

"There is nothing to undo. She will soon get over her tiff. I shall pay no same as ever hereafter.'

Mary Blake's home. Before going there Ellen informed me that it would be better if I did not invite Mary to dance, since she had said that if I did distance when Griggs drew rein and she would refuse.

"Indeed," was my reply. "I'm very sorry to hear that."

On the evening in question when the piano began to discourse music for the twostep I stepped up to Mary Blake and asked her to dance. She bowed, said nothing and turned away. This was the end of my part of the little comedy. I knew that her refusal to dance with one who had invited her in her own home was an unpardonable breach of good manners. However, I ticle. When the delivery had been remained for the evening, dancing made the two men rode back to the with all the other girls in turn.

"What have you done?" exclaimed Rodman: Elien as we walked home together. "Didn't I warn you not to ask Mary to

"You wouldn't surely have had me heare her out, inviting the others, and

that, too, in her own home." "She was perfectly right to refuse

your invitation till you had apologized for your rude treatment of her at the card table."

"Refer that point to some elderly person with a fair knowledge of good senor," said Jose when he had made manners. If the decision is in your fa- his guests comfortable and set before vor I will at once apologize to your friend, though I admit I don't know how it is that you have intrusted your what for."

"To whom shall I refer it?"

she declines you are to decide between one of the conquerors of Mexico." your friend and me."

The decision of the referee was that Mary Blake should apologize to me for refusing to dance with me in her own house. Mary declined to do any such thing, and, though it cost Ellen a struggle, she broke with her bosom friend. Since our marriage I have succeeded in convincing my wife of the dangerous position in which she stood.

A Display of Confidence

By EVERETT P. CLARKE

There are many unwritten stories about Mexico. Doubtless if an account of the happenings of that country of turmoil could be laid out before the novelist it would afford themes for countless novels of adven-

At the time President Wilson issued his manifesto of advice for Americans to leave Mexico there were not only a number of foreign residents there, but persons engaged in building railroads. locating mines-in short, developing the country. From comparative peace everything was turned to a show of war. Soldiers rode in the railroad trains to protect them in case of attack, and a detachment of rural guards was located at every station. The Mexicans went armed; therefore foreigners felt constrained to do the same thing, for not to be armed was to be conspicuous.

Edward Griggs, civil engineer, was at this time engaged in locating a a purpose is like a gyroscope. Revolving in a certain plane, it is hard to turn him to another plane. Griggs. when President Wilson's advice was promulgated, had nearly finished his work in Mexico and could not tear himself away from it. He strapped a revolver about him, as did the force ons. They simply wore them because "How do you like her?" asked Ellen every one else did.

he was obliged to go over a certain section of the road that would pass through a mountain range. He was told that the region was infested with bandits who would not hesitate was ever to be broken. On the mornto take everything that belonged to ing of the eighth day there was a bethim and if they deemed it necessary | ter feeling, however. At noon every would murder him. But he must ei- man ate a hearty dinner. An hour ther abandon his work or go, so he

Taking with him a single assistant firm look about you, and she predicts back up the mountain, expecting at was no burial of the bodies; they were This was the tiny hole in the apple stand and deliver his valuables. But life had departed. When this had been incandescent bulb shine because the horses, made straight for them. They were dressed in the tawdry Mexican costume, and before they reached the two wayfarers the jingle of their spurs were distinctly visible.

It was evident to Griggs and Rodman from their faces as well as their actions that they belonged to that lawless element of Mexico which in peaceful times may by care be kept within the law and in troublous times are ready for plunder. They seemed to be especially interested in the travelers' horses. Griggs, who understood a little of the patois Spanish they spoke. heard them disputing as to which two should have their horses. One of them. called Jose by the others, seemed to be a leader. He stood aloof from the quarrel about the possession of the animals, sitting on his horse moodily watching the contest. Griggs, taking attention to it, treating her just the off his sombrero to this chieftain, politely begged that he might be accord-Ellen was much troubled. A few ed a few minutes' private conversanights after this a dozen of us young tion with him. Jose, not to be outpersons were to have a little dance at done in politeness, took off his own sombrero and, with a bow, replied:

"Si, senor." ("Yes, sir.") The two men rode away for a short

"Senor, I have been told that there are some persons in these mountains who make a living by plundering travelers. Will you oblige me by taking care of the valuables for myself and my friend that they may not fall into the hands of these miscreants?"

While speaking he was taking his money from his pockets and his watch from his fob. The bandit took them. bowing low as he was handed each arparty, and Griggs said in English to

"These gentlemen will keep our valuables for the present. Hand over the

contents of your pockets.' Having thus robbed himself and his friend, he turned again to the chief. "I would further ask your protection

overnight. Will you allow us to remain in your ranch till tomorrow?"

"Si, senor." replied the chief, doffing "You have greatly honored me.

them a jug of pulque. "May I ask valuables to a stranger?"

"It is not only the honesty apparent "Your mother, and if she decides in in your countenance," replied the enmy favor you are to ask Mary to do gineer, "but I am sure that you have anything your mother may suggest. If descended from some grandee who was

"How did you know that, senor?"

"By your noble bearing." Here was a new sensation for one who had never before been trusted and who, like most other Mexicans, prided himself on having descended from one of the conquerors. He kept the travelers overnight; returned their valuables and the next morning sent them on their journey under an escort.

THE ONLY ONE LEFT

By M. QUAD Copyright, 1913, by Associated Lit-

I was only fourteen years old when I made the voyage from London to

Rio on board the Duchess, having a crew of fourteen, all told. At Rio we loaded green coffee for Australia. We got away with a fair wind and everybody in perfect health, and our run to the east, until we had sighted Inaccessible island and left it a hundred miles astern, was something to boast of. Then came a dead flat calm, which with one hand he also holds one end lasted for eleven days. On the fifth of his own sack. The keeper holds day of the calm two men were sud- the other end of the bear's sack in denly stricken with a strange ailment. one hand, and in the other his own They were reported sick at 8 o'clock in the morning; by 2 p. m. both were dead; at 6 o'clock a third man was taken down and lived only two hours. Green coffee will sometimes breed fever on a long, hot voyage, but the symptoms of these men were so strange that some other explanation had to be looked for. No one was attacked on the sixth day, but on the railroad. A man who is interested in seventh the captain, second mate and a common sailor all came down at once. The first complaint was dryness of the tongue. That was followed in half an hour by loss of sight and other senses and before noon all were dead. On the night of the seventh day a sailor who had lain down on the deck in perfect health and soundly slumbered for three hours awoke with a parched tongue. He did not wait to die as others had done, but groped his way to the ship's side and dropped from the rail into the sea. He was That Griggs might finish his work | the sixth who had died, and the living were panic stricken.

We had now lost nearly half our crew, and the ship lay heaving on the glassy sea without sign that the calm later four men were taken down at almost the same moment, and the symptoms were more violent than in named Rodman, he started on horse- any of the preceding cases. There every moment to hear an order to simply thrown overboard as soon as no longer any hope that any man | the thin wire of carbon (or something would be spared. The captain's gig else) in the bulb is heated by electriccould be got at handily, and in case we wanted to take it and pull away from the ship he would help to get her in the water. The two sailors were The yellow gas flame is not nearly so eager to get off, but my mind was hot as the blue. That is why you quickly made up to remain with Mr. Merwin.

When the mate and I were left alone he wrote up his log book and also prepared two statements, which he sealed up and cast overboard. That was heaving about on the ground swell in the same monotonous way, and Mr. Merwin sat at the table in the cabin reading a book. I slept the night through without a break, and it was sunrise when I turned out. I looked into the mate's stateroom, but saw that he had not been to bed. I ran on deck, but he was nowhere to be seen. I called him and began a search, and it was a full hour before I gave up and realized that he was not in the ship. What had happened during the night I could only surmise. He had

not wakened me nor left a message. When I fully realized that I was alone aboard of the ship I was so terseveral hours.

Things were not at all clear to me until the morning of the eleventh day of the calm. Then I awoke to find myself feeling as well as ever in my life a signal of distress of the English flag. has named. If on demand he cannot and, although there was no wind, I rafi | do so he must pay a forfeit. the bunting aloft.

It was 3 o'clock in the afternoon before the first catspaws began playing over the glassy surface of the sea, but in the course of half an hour a steady breeze set in from the north, and the bark went drifting away before it. During the next five days and nights the breeze blew from every point of the compass except the east, but did not rise to a gale nor create a heavy sea. I had little to do except to cook my meals and go aloft to look for sails, but I made as much work for myself as I could and did not permit my mind to dwell on the present or future. On the seventh or eighth day of my loneliness at 1 o'clock in the afternoon and This meant that persons who are overwhile the bark was drifting to the east under a light breeze I went aloft and made out a sail to the north, a second to the south and a third to the west. The first two were too far away to hope for assistance. The third was coming up and must pass me close. She was but a speck on the horizon when I made her out, but two hours later I had her in plain sight, and at 5 o'clock she was up with me. She proved to be the ship Amazon of Liverpool. bound for the Cape with soldiers and emigrants, and a crew was put aboard of the derelict, and she headed for that port in company. Ship and cargo were worth a big sum of money, but I was not entitled to a dollar of salvage. There were those who even said I ought to be thankful over my escape six feet from tip to tip of the wings. from the epidemic, let alone the question of a reward. I had to tell the story over and over again, make affidavits, go into court and sign papers, and I may tell you that before I got through playing the hero I was disgusted with the whole business and hoping nothing of the sort would ever

occur again.

well suited for the noon hour or the recess period, says Youth's Companion. Any number of boys can play. The only implement required is an old gunny sack for each player.

The sacks are loosely rolled the long way, but not tied. To start the game, one boy volunteers to be the bear. He chooses another boy for his keeper.

The bear stoops, as the boy does who is "down" at leap frog. If he does not bend his head far enough at first he will soon learn to do it. He holds his ankles with both hands, but

The rest of the players circle round, watching for a chance to hit the bear with their sacks and escape being hit by the keeper. The keeper tries to touch one of the players with his sack. Whenever he succeeds, the player so touched becomes the bear, the old keeper joins the players, and the exbear becomes keeper until he can win his place among the other players again.

Should either the bear or his keeper let go of either end of either sack and thus "break the circuit," the bear may be "basted" until the connection is restored. No touch made by the keeper counts unless both he and the bear have hold of the bear's sack. Thus it becomes an object of the game to strike at the bear's sack and break either his hold or that of his keeper or else to "disarm" the keeper by

Have you ever wondered why the flame of the kitchen stove is blue, why the open gas jet and the incandescent electric bulb shed yellow light, why the gas mantle shines white and why the electric arc is blue, especially when you see it burning in the daytime? The source of the light is dif-

The old fashioned gas jet and the than red hot. The difference is that ity and the fine carbon dust of the open flame (it is called soot when it's cold), is heated by the blue flame. should not turn up the gas too high when you are cooking things on the kitchen range.

The gas mantle is white because the fabric is heated to a great degree by a blue flame inside, much like that of night when I went to sleep the bark the kitchen stove, and very hot. The electric arc shines with the light from intensely hot carbon, but mostly from the oxygen of the air, which is raised to a white heat by the passage of electricity between the two carbons.

Geographical Game.

Seat the players in a ring. Let the first one say aloud the name of a city mountain, river, lake, and so on, located in any part of the world. The next player gives a name beginning said name, and the third supplies one beginning with the final letter of the second, and so on, around the ringthus: America, Africa; Sacramento, rified that I hid away in the cabin for Oberlin. Each player is allowed thirty seconds in which to think. If by the end of that time he has failed to supply a name he must drop out of the game. The one who keeps up longest is the champion. Any player at any and ran on deck to find signs of change | time may be challenged to give the in the weather. I knew how to make | geographical location of the place he

Sayings About Apples.

There are a great many people who are fond of apples, and it is right that they should be, as this lovely autumn fruit is not only good to the taste, but wholesome to eat. Long, long ago our ancestors made up this little rime about apples:

Eat an apple going to bed, Make the doctor beg his bread.

The Danes had a saying, "The rotten apple spoils its companion," a reminder of the fact that evil is easily spread. Another saying connected with this fruit was, "He goes from apple to apple till he gets a crab." particular in choosing are apt to select just what they do not like; the "crab" means the crab apple, which is usually sour and harsh.

A Fish Story. It was down in South Carolina that Mr. Hiers went fishing. He had just raught a fish and pulled it up out of the water when an eagle, which seemed to be hungry, swooped down and made a bite at the catch. Mr. Hiers yelled and swung his arm, and the eagle flapped aside, but its wing caught in the hook that had already caught the fish. So Mr. Hiers killed the bird after a fight and carried it home to exhibit it in triumph to wondering neighbors. It measured nearly

DRIED BEET PULP AS A DAIRY FEED

The feeding of a small herd of dairy cows without a silo from a limited amount of runout tillage land presents quite a problem-that is, if a profit is made, writes a New Hampshire farmer in the Rural New Yorker. While there is now no question about the value and economy of silage as a feed, it is nevertheless a fact that thousands of farmers are still without a silo. The best substitute we have found for silage is dried beet pulp, which we commenced feeding soon after it-was put on the market.

Previous to using the pulp we fed the grains commonly considered best for dairy cows-viz. cornmeal, bran. cottonseed meal, gluten feed, hominy, etc .- in various combinations, depending on the cost of each and kind of roughage available. But we had more or less trouble from garget, caked udder, cows off feed, and they would generally shrink in milk much sooner than we thought they should. The beet pulp did net perhaps cause the cows to give a greatly increased flow of milk, but there were much less variation and shrinkage, and the troubles above mentioned disappeared. We have fed

The miserable specimen of a cow here pictured is typical of the many useless animals maintained in this country. Instead of being a source of profit such animals do not pay for their keep and are justly de-nominated "robber cows." Testing for milk production and butter fat is the best means of eliminating this unworthy type. The dairyman who keeps a herd of such scrubs is merely cumbering his fields and working for nothing.

the pulp both wet and dry and can see no particular difference in results. If water at least twice daily.

The rule we follow quite closely, but with some variation for amount of grain per cow, is one pound of grain for each three pounds of milk. The maximum grain feed is continued until milk flow is very small, when we reduce to from four to six pounds per cow and give that amount until within one week of her time to freshen. Each cow's grain is weighed, and we are exact about this to the ounce. By experimenting we found that to commence reducing the cow's grain ration as her milk flow diminished would cause her to shrink more rapidly. whereas if same amount was continued right along she would be encouraged to keep up as near as possible to her full flow of milk. We of course watch the cows closely and, if any unfavorable symptoms appear, immediately reduce the ration, but this very rarely happens. By feeding in this way as the cow's milk flow diminishes she commences to put on more flesh, and the unborn calf also gets needed nour-

WORK THE STALLIONS.

Plentiful Exercise Conduces to Health and Vigor.

There is no stallion so good that he will not be a lot better if he is worked daily in the harness and made to take his turn in all the hard labor of the farm. What is there about a stallion that he should be condemned either to a life of luxurious ease or neglect more or less total? Few stallions kept for service in the country get proper care -indeed few of them get any sort of care at all during the winter season. Generally they are maintained on a starvation diet and allowed to grow hair several inches long, in which all manner of filth and vermin may collect at will. Stalls are seldom cleaned out. and as for cleaning up the exercising yard, that is never thought of.

Why should so many stallions be kept in this obnoxious way? Take any one of the farm horses and submit it to the same treatment and it would go wrong in a short time. Why then expeet a stallion to withstand such ill treatment simply because he is a stallion? No matter what the horse cost. break him and put him to work. His giant thews and sinews, if he is a drafter, will be a tower of strength in the gang plow and the manure spreader. He will haul logs out of the timber with ease. If properly handled he is the pleasantest worker imaginable. because he is always unafraid and generally more intelligent than geldings

It is all in the man who handles the stallion. Then in addition to keeping the horse in a much more healthy condition continued labor in the harness will make and keep him docile and much more easily handled than if he is neglected and left to himself to form bad habits, mental and physical. There is a big dividend in working an entire

PLANS FLEET OF DIRIGIBLES.

German Inventor Would Carry 300 Passengers Across the Atlantic.

Vienna.-The German airship inventor, A. Boerner, is here trying to raise capital to finance a line of transatlantic dirigibles, each capable of carrying 300 passengers and of crossing the Atlantic in fifty hours.

French experts state that the new airship certainly is the most practicable yet designed for long voyages. The inventor says it will bring Vienna within sixty hours of New York. The ships are to be as luxurious as the Imperator, with a length of 800 feet and a width of eighty. There are to be 300 cabins, dining and smoking rooms, a promenade deck, kitchens and electric lights. Built in a semi-rigid car running the entire length of the ship will be thirty-four motors of 150 to 200 horsepower each, so arranged that no ballast will be carried.

Engine breakdown or explosion will be theoretically impossible. Three separate gas bags in a single envelope will lift the ship. The ship will be able to make a nonstop flight of 4,000 miles at an average of sixty-eight miles hourly, landing without external aid.

It can descend on the water, along the top of which it can travel thirtyfive miles hourly with no danger of a

HOW MANY TOES ON TURKEY?

The Question Is a Puzzler In Smith County, Kan.

Smith Center, Kan.-The number of toes possessed by a normal turkey remains a matter of conjecture in the

district court of Smith county. Two men were before the court charged with stealing seven big gobblers and hens from a neighbor. The plaintiff identified his fowls by holes he had thoughtfully made in the web between the toes with a harness

"How many toes has a turkey, anyway?" asked counsel for the defense. The plaintiff had never counted

One witness guessed four, another guessed three, and a poultry dealer of twenty years' experience admitted he did not know.

IS ON THE INCREASE

There Are Now 700 Victims Isolated In Hawaii.

New York.-Leprosy is on the increase, according to the statements of various scientists studying the disease in different parts of the world. In Paraguay the number of cases doubled within ten years, says Dr. J. W. Lindsay, an Englishman. There are 600 lepers at Molokai, in Hawaii, and 100 isolated in Honolulu. The last quoted report of the disease in the United States places the number of leprosy cases at 146.

In German East Africa the disease is on the increase. Dr. Albert Serra of the University of Cagliari, Sardinia, says that many more leprosy cases exist in Sardinia than the statistics re-

Most of the lepers of Hawaii are isolated on the fertile peninsula of Molokal after they have been subjected to six months' observation at the Honolulu hospital. Much freedom is allowed them in Molokal. They are allowed to marry and to live with their wives in separate cottages. Children are not Daily Courier-Journal at allowed to remain with an infected parent. however.

The question whether leprosy may be inherited is yet an open one. Dr. Marcus Rabinowitch of the Karkoff hospital, who has conducted researches through several years with the blood of lepers, is authority for the statement that there exists in the blood of all lepers he has examined a distinctive bacillus. He says he had found it in the heart of an unborn child whose mother had died of the disease.

WATCH HANGS IN TREE A YEAR

Owner Then Finds It After Many Persons Have Passed.

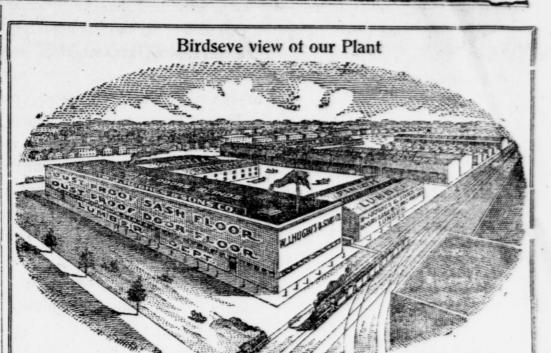

Georgetown, Del.-Lost a year ago, a gold watch owned by Wilfred White, a Georgetown merchant, was found by the owner after it had bung in sight of many persons for a year without being discovered.

After White had been gunning last year with a number of friends he found he had lost his watch and fob. He retraced his steps through the whole day's trip, besides advertising. unsuccessfully.

Recently White and the same party took a similar trip through the same section. The lost watch was found hanging on a twig. It was in good shape and as soon as it was wound began to keep good time.

Cow In Woman's Lap.

London.-C. Sims of Holbeach, Lincolnshire, met with a remarkable accident while motorcycling in South Lincolnshire with Mrs. Sims in his side car. A cow moved across the road in front of the motorcycle and was taken up in the side car, where it reposed on Mrs. Sims' lap. The cow gave Mrs. Sims a somewhat violent "kiss" on the or twice daily. Any wart that has a cheek, which, it is stated, "left a headache." The extra weight then tipped by the use of the scissors: then lightly up the side car, and the cow slipped off

Democratic newspaper devoted to the in rest of the City of Columbia and the people Adair and adjacent counties

Intered at the Columbia Post-office as d class mail matter.

31, 1913

The passing of the old year and the advent of the new is of itself a reminder that time flies, and should impress every one the importance of using the hours and days as they swiftly glide. It seems but a brief trip from nineteen hundred and twelve to the dawn of nineteen hundred and fourteen, and yet, twelve full months—a complete year has been swept from the calendar of time. In reviewing-taking a back look over the year just closed-The News regrets that it has not carried more messages of peace and good will and gave more hope and, inspiration to the community it serves. It regrets that its feeble efforts to advance the welfare of this section have, in many instances, been misunderstood, but it has no regrets for its insistency for better public conditions nor the manner it sought to secure them. Citizens of this county, men of good judgment and mature thought, may well look back over the year and note the tendency of action and accomplishment, and measure it. the worth affecting the future. Time flies, but this community moves slowly if it moves at all toward ends to be desired. The year truly had its blessings in many things, and for these all should be truly thankful. The morals of our people remain good, their social greetings unimpaired, educational interests few degrees better than former years, and religious life normal. No great waves of enthusiasm have reached this section in any avenues of living, and it seems we are drifting serenely on toward the end of our earthly career with but little effort to brighten the future-such is the past, such the living of nineteen hundred and thirteen. Turn to the future in the bud-hood of a new year, and let us all resolve to change the drift to intelligent, united action to bring better public conditions in our moral, intellectual, religious and industrial conditions. It is the duty of all to be good citizens, to be active and energetic in chosen avenues of business, and it is likewise a duty to render good service to the public. The farm should be made better, the place of business enhanced, production enlarged. Individual effort must direct thrift and advancement in personal interests, but after all, public conditions affect, stimulate or cripple individual endeavors. It behooves us all to have a thrifty community, and if united in purpose and action Columbia and Adair county can do more to create thrift and enterprise during the incoming year than it has ever done in a decade before. The News does not propose to lead out of the wilderness, so to speak, but it does propose to do its whole duty as it sees it. The effort now on to

get railroad connection means too

ing that it will soon be here, The trouble whatever. News extends to its many readyear in the history of this section. It believes in the old adage-keeping everlastingly at it brings success.

Death of Little Mary Rubarts.

Last Sunday afternoon about three o'clock the death angel visited the home of Mr. and Mrs. G. W. Rubarts and claimed for it their little daughter, Mary Elizabeth, who was the baby of their home and loved by all who knew her. She was born June 1st. 1910, died Dec. 21 1913, making her three years six months and twenty one day's old. Religious services were held at Tabernacle Monday afternoon by Eld. J. Q. Strong Hill was on the sick spent last Friday with Mr. and Montgomery. She leaves a father, mother, one sister and one We are sorry to know that Mrs. half sister and a host of relatives who weep, weep not for we know

Enid Dec. 14, 1913.

Editor News:-

News. I am visiting my brother in Oklahoma. I came from Cincinnati, Ohio, and passed through Indiana, Illinois, Missou-Rockland line, and have seen some of the prettiest country in the world and have had a nice trip, and I certainly like the country, or all of it I have seen. My brother, Loe Bryant and I, here, and I tell you it is a beautiful country. We also went to see the corpse of John Wilks Booth, who killed Abraham Lin-Oklahoma. We visited also the stock pavilion in Enid-the largest of the kind in America. It is 750 feet long, and I judge from each other, and each has a different taste, but all of it is good water. From what I have soon have to return home, I will have to content myself without seeing them. We also went through a \$10,000 dairy barn. one-sided. It is near my brother's, and grand to look at, and I never saw such good wheat in my life as in Kansas and Oklahoma. I came ing if it still continues this way. through Missouri at night and did not get to see much of it, but

THIS QUEEN SAYS

Claim That Maria Teresa's Title to Throne Is Better.

MANY CLING TO BELIEFS.

Still Maria Is Happy With Her Bavarian Throne and Title-Her Eidest Son Is Now Forty-four Years Old. No Other Royal Family Is Richer Than This In Romantic Legends.

London.-Occasionally a letter passing through the British mail bears another stamp along with the usual one. The customary one, which has on it the picture of King George V., is placed upside down, and the other occupies the normal position. The stamp of King George is the one which assures the letter's delivery, but the other to the knowing clerk is an unmistakable sign that the sender belongs

MARIA TERESA, QUEEN OF BAVARIA

to those who denounce the present reigning family as illegal and maintain old woman who now shares another Drug Co. throne with her husband, for this extra stamp bears the picture of Maria Teresa, now queen of Bavaria.

The recent change of rulers in the little kingdom of Bavaria, when the diet removed the insane King Otto from the throne and called as his successor Prince Ludwig, formerly the regent, brings to mind once more that contention against the legitimacy of the enthroned British dynasty. It announces that there are still Jacobites who persist that the rightful ruler is this wife of the Bavarian king, who is also a direct heir to the regal state of Charles I. of England.

But if these legitimists do now and then assemble to drink toasts to Queen Mary IV. and do use their own postage stamps, thus proclaiming themselves traitors, nobody in England worries and nobody outside the empire knows such a party exists except as a memory arises from history book days or when, as now, attention is attracted to one involved in this contention. Year by year those who give allegiance to Maria Teresa as the rightful queen of England become Moving pictures showing attempted fewer. Long ago the Jacobites ceased to trouble the minds of those who wear the crown. To all but themselves the whole matter has become little more than a romantic idea.

Now that Maria Teresa wears one crown it cannot but mean a shadow to the enthusiasm of those who decorate the statue of Charles I. on the anniversary of his execution. It makes still more remote any chance that this descendant of the beheaded monarch or any others who may come after her the throne of Bavaria. Their oldest son, Prince Rupert, is now forty-four years old and popular among the people. He, too, has a son, a bright. generations into the future.

But yet the Jacobites have hopes. Eagerly they watch the marriages and births in this Stuart line, hailing each new arrival as king or queen or heir to the throne, and eagerly, too, they watch the Hanoverian line, hoping that some breach may appear and they be given a chance to gather their strength and force their own "ruler" into his or her "rightful" place.

Among us there are few who pay any attention to the study of lineage, but ancestry is too important a thing with kings and queens to be passed over lightly. So it is that the legitimists are able to trace the blood of their Queen Mary back through all the intricacies which come at last to Charles I. And, too, it is equally important to them in an opposite way that they can trace the descent of George V. through the Hanoverian line to Elizabeth, a sister of Charles I. and daughter of James I, which makes the descent of this line one degree more

remote than that of the Stuarts. Among all the royal families none is richer than this one of the Bavarian queen in its romance, legends and bewildering claims.

A LETTER THAT WENT ASTRAY

Secret Service Man In Game of Life and Death.

"Here; make haste or you will be too late. Take this and go to the saloon referred to. Read as you go. There's your car now."

The chief thrust a letter into my hand, and I ran out of the office just in time to step on a car going downtown. I knew the letter referred to the coming of the prince, for we had no time to attend to other business than his protection. In the car I read: G.'s saloon, 11 a. m. Beer. Glass over.

PENOCHLE. At precisely 10:50 I strolled into G.'s saloon. Sitting at one of the tables, I called for beer and cast my eyes about the room. There was but one person seated, and the moment I saw him I knew him to be my man. Fortunately for me, he had come early. I must get him away before the man he was to meet entered. That man did not know him, but did he know that man? We shall see. I sat for a few minutes watching him and saw that he was nervous. Then, fixing my eyes upon his, I emptied my beer glass and turned it upside down on the table. He started. I got up and, going over to him, said in a low tone, "Follow me." He did so, and as we left the saloon a man with a red beard entered and cast on us both a piercing eye, which he did not turn away till we were out of his sight.

"A narrow escape," I muttered. "That's the man who was to meet Penochle."

"Why did you not wait for me to give the signal instead of giving it yourself?" asked my man. "Had no time to waste. Have you

arranged everything?" "I have the bomb."

It would be impossible for me to keep up a conversation with him, even for a few minutes, without betraying myself. My only hope was before doing so to gain sufficient information to locate the conspiracy. "Where is it?" I asked, referring to

the bomb. "Between the mattresses of my

but did not dare do so. 'He is expected in the morning," I Robinson in welding the Dodger masaid instead. "When is it to be done?" "While he is being driven to his ho-

tel. That is the order." "Where will you stand?" "I?" He looked at me, surprised.

'You mean where will you stand." "I will attend to that. You must hand me the bomb. However, these details must be arranged later. At present I can only make an appointment for this evening. Meet me tonight at-let me see. Go to No. street, rear hall room, third floor, 10 o'clock."

"It won't do for us to be seen talking together on the street. Goodby." know it, and by one whom I rather there is anything professional in an than my anarchist had cause to fear.

"But"-

I went to the office and reported the program to the chief. HELPFUL HINTS FOR HOUSEWIVES

A Heating Stove That Uses Hot Air Pipes.

The heating stove shown in the illustration in a manner combines the advantages both of the ordinary stove, due to radiation, and of the furnace, due to the circulation of heated air. Air is drawn from the room into pipes on both sides of the stove, is heated to a high temperature and is then discharged from the top of the stove either into the room in which the stove is located or into pipes leading to the upper floor.

Cleaning White Silks.

To wash white taffeta and other white silks proceed as follows: Having made strong suds by boiling white soap in soft water, allow it to cool to blood heat, or 100 degrees, and wash the silk in it by swishing it about and lightly pressing out the water with the hands. Then dip the goods in another suds of the same kind, press the water out once more and hang in an airy, sunless place until almost dry, pulling out all wrinkles from time to time. Roll the silk carefully over a board and let it lie wrapped in a towel until there is only a trace of moisture left. Then smooth it under a fine white cloth with a moderately warm iron. If a clear tone of white be desired add bluing to the water; if an ivory shade be preferred use the clear

Pan Dowdy.

For this peel, quarter and core ten large or twelve medium sized sour apples. Put these in a clean granite kettle with half a cupful of water, one cupful dark brown sugar and half a teaspoonful of allspice or cinnamon. Make a very soft dough of one pint of flour and a heaping teaspoonful of baking powder sifted together and moistened with cream. Pat the dough into a flat cake and lay over the apples. Put on a tight cover and cook on the top of stove. The steam from the apples cooks the dough and gives it a delicious flavor. Turn the kettle upside down on a large platter so apples will come on top and serve hot

Household Notes.

Polish windows with paper instead of cloth to avoid lint and streaks. To obliterate a scratch on polished furniture rub vigorously with linseed

A piece of gum camphor placed in the box where silver is kept will prevent it becoming tarnished.

To remove rusty screws or nails from wood try letting kerosene soak into the wood around them.

To freshen rusty black lace soak it with vinegar and water, two tablespoonfuls of vinegar to a pint of water. Rinse and iron while damp between flannels.

Stuffed Onions.

Choose six medium sized onions as much of a size as possible, pee! and remove the centers with a cutter. blanch them in boiling water, drain and stuff them with the following mixture: Take a slice of bread, cut off the crust and dip the crumbs in milk, squeeze out the milk and mix the bread with one ounce of grated Parmesan cheese and the yolk of two hard boiled eggs. Add some finely minced parsley, a pinch of sugar, salt and pepper to taste and bind all with the yolk of one raw egg. Dip the onions in flour and fry. Lift out, drain well and serve with a piquante sauce poured over.

Mince Pie.

Three teacupfuls of chopped meat, five teacupfuls of half and half sweet and sour apples chopped, a teacupful and a half of molasses, two teacupfuls of sugar, glass of any sour jelly, tablespoonful each of salt and ground cloves, scant half teaspoonful of pepper. Moisten with the liquor in which the meat was boiled. Before laying the top crust sprinkle over bits of butter, dust freely with cinnamon and strew thickly with seeded raisins.

Pumpkin Pie.

Mix three tablespoonfuls of steamed pumpkin, two-thirds pint of milk, a teaspoonful of flour beaten with an egg, two-thirds teacupful of sugar, a little salt and scant half teaspoonful of ginger. Fill crust, dust freely with cinnamon, grate on a little nutmeg and dot with bits of butter.

A Gambler Prince

By DONALD CHAMBERLIN

This is a true story.

'Francois Blanc," said the judge. "what have you to say why sentence should not be passed upon you?" "Nothing."

"I regret that the inadequacy of the law compels me to let you off with a nominal punishment. You corrupted the young men in the telegraph office to publish false news from the Stock Exchange in Paris to enable you to make money by buying or selling shares, an offense which should give you not less than ten years in prison. I sentence you to serve seven months in jail, being the longest term I can give you for your crime."

Francois Blanc bowed his head and was marched away. When his term of service had passed he came out of jail with \$20,000 to his credit in bank. Right under the nose of the judge who had convicted him he established a casino in Homburg, which was really a gambling house. He made money. but a prejudice against gambling was growing in Germany, and he feared the time would come when laws would be passed that would ruin his business.

M. Blanc looked up rather than down. He aspired to run his gambling business in a country where he could so influence the laws that none would be made to interfere with his method of enriching himself. So he looked about him. In Europe there are a number of small kingdoms, principalities, dukedoms, that have been independent so long that none of the great powers have the hardihood to absorb them. Blanc found a little principality containing a few square miles only that seemed ripe for what he intended. What the powers dare not absorb by the bayonet he resolved to absorb by undermining with gold.

The ruler of this principality had descended from one of the oldest royal families in Europe, but he had nothing but his pedigree. He held a court, it is true, but his courtiers were those who served without salaries and were able occasionally to lend the sovereign money. In order to recoup he sold a concession in his principality to two men, who bought it with the intention of opening a gambling house on the territory conceded. They built a casino and began operations, but the prince wanted all their profits, and they became discouraged.

Francois Blanc, learning of this concession and the condition of its owners, bought it from them and, closing out his casino at Homburg, built a costly one on the new site, laid out splendid gardens-in short, expended several millions with a view to making his place attractive. Fortunately for him the time was ripe for such an investment. For many years Baden Baden, in Germany, had been the fashionable gambling center of Europe, where every one, from royalty to commoner, gave way to the passion of gaming. Baden Baden was now no longer such a resort, and Blanc aimed to make his concession what Baden Baden had been.

In this he succeeded. The gambling mania of Europe was all made to pour gold into Francois Blanc's pocket. Kings and queens, princes and princesses, dukes and duchesses, came and made it fashionable, to be followed by every one who had a franc to spend and a franc to risk. The sovereign had all the money he wanted to spend, and his court, if not numerous, were at least well dressed and were not called upon to lend the prince money. in the city in which I practiced. But while he held the empty title of | But by this time my work as a general ruler of the principality Francois practitioner had given way to surgery. Blane was the real governor.

The prince died and left his inheritance to his son. The new sovereign proved himself really nothing more than a silent junior partner in a gambling establishment, and there was nothing for him to do but remain as and in consequence had ruined my he was so he renewed the concession practice for several years would never for a term of fifty years for \$5,000,000. a sum that Francois Blane could well But the child upon whom I was supafford to pay since he made it in a posed to have made such a blunder, single year. world, assemble to "buck the tiger." If the present Prince of Monaco derives an income from a concession to a gambler he is personally far above the gambling business. He is a scientist and has made some valuable contributions to scientific lore.

Doctor's Story

By H. SANBORN BROWN

When I began to practice medicine I was inclined to give my patients a diagnosis of their cases, but when I had been detected in a number of errors I found what reputation I had gained as "one of those frank, outspoken doctors, with no pretense about him," gone. That I had diagnosed whooping cough as a bad cold and measles as eczema, with a number of other blunders, got abroad, my practice dropped away, and I was obliged to pull up stakes and begin over again in another locality.

In my new field I looked wise and said nothing, or if I did say anything it was that the case had not sufficiently developed to admit of diagnosis. This would have done very well had I stuck to it stoically. Unfortunately, patients or those interested in them need at times to be buoyed. This fact got me into trouble again. Called in to see a little child who showed plainly the symptoms of diphtheria, when I looked into the mother's eager, questioning eyes I had not the heart to tell her of her darling's danger, so I told her it was a case of sore throat.

All went well with the child, and the diphtheritic membrane in the throat was breaking down when the child's grandmother came to the house. The old woman had seen a case of diphtheria and on looking into the throat saw that which she recognized.

"Heavens," she exclaimed to the mother-"the child has diphtheria!"

The mother fainted. The grandmother ran to the telephone and, ignoring me, called on one of my fellow practitioners to come in hot haste. He at once pronounced the case one of diphtheria, but, learning that I was treating it, returned to his office and called me up by telephone. I explained the matter; but, realizing that I had lost the at once that she must put me into anconfidence of the family in question, I begged him to take up the case where I had left off and finish it. He did so, and the child, who was already nearly well, recovered.

That young mother soon knocked my practice into smithereens by telling every one of her acquaintances that I didn't know a case of diphtheria from one of sore throat.

Considering that my crime had really been nothing more than a tenderness of heart, this was hard to bear. Women are apt to accept statements without question, and I was tabooed without an opportunity for defense. The husband of the lady in question asked me about the matter and when I explained it tried to pacify his wife. But no such excuse would be accepted by her. "Any doctor not fit to treat a cat could get off with such an excuse as that," she said.

This time I made up my mind to stand my ground. If I fled from the tongues of the laity I would not be worthy of a place in the profession. After all, whatever success a physician attains, his real intrinsic standing is fixed by his fellow workers. They may not agree with him, but they will not deny his ability. For a long while I was dropped out of practice almost entirely. But gradually other doctors got into the habit of calling me in for consultation and recommending patients to me in cases coming within my especial province, and at the end of about five years I found myself again making a living. In ten years I stood at the head of my profession

There were but few recognized surgeons in the place, and this was of

great advantage to me. One would suppose that a woman who had been indignant at my calling a case of diphtheria one of sore throat again have any use for my services. by the family physician. He was not One storm arose on the gambler sov- a surgeon and would not operate himereign's path, but he weathered it. self. When the mother asked him to nominate a surgeon for the case he

recommended me. Meanwhile the tongues she had set wagging to my discredit had gradually got to swinging in my favor. The estimate of my coworkers in the profession, together with the testimony of patients I had helped, had reached the lady's ears, and, although she still believed that at the time I treated her This was the last bite in the loaf the child I didn't know a case of diphthegambler devoured. But the boy recovered.

The Power of Mind Over Matter

By MARGARET C. DEVEAUX

At eighteen I was a delicate girl in the doctor's care for some nervous affection the nature of which seemed to puzzle him. During this time I visited | a friend of mine who lived in a city. On my arrival I was shown to my room, the two rear windows of which looked down into a back yard, but there was a side window which looked directly into another side window of the next house, the interval between being but a few yards. My friend threw open all these windows and left me to make

As soon as she had gone I went first to the rear windows and looked out, then to the side window. There, staring, looking at me, was my counterpart -indeed, myself. I started, and she started. Then, covering my face with my hands, I turned away and buried my head in the pillows on the bed.

How long I remained there I cannot tell. It was probably but a few minutes, but it seemed a long while. I was sure that my nervous affliction had produced the apparition. I had seen myself once before in a dream, from which I awoke with a violent heartbeat, but I had not considered that a matter of moment. But now I had appeared to myself in broad daylight. I had before me the frightful prospect of passing into insanity.

Not for the world would I have my hosts learn of my infirmity. Some persons must tell of all their aches and pains and forebodings if only for sympathy; I concealed mine. As soon as I had pulled myself together I arose and without looking at the window where I had seen myself went downstairs without having changed my dress. I told my friend that I was a poor sleeper and hoped that in the morning I would not be awakened by too much light pouring into my room. She said other chamber, since the one I occupied faced the rising sun. This was exactly what I wanted, and I slept that night in an apartment facing the west.

I intended to make an excuse to go away the next day; but, seeing no further signs of myself, I was persuaded to remain. My friends, who knew that I was in poor health, were extremely kind to me, and nowhere else could I find rest and comfort as I could with them. As I grew stronger a desire came to me to look out of the window where I had seen my double and perhaps I would see her again. But so great was my dread that I dared not go into the room to make the trial. I made several attempts to conquer my fears, but they were failures.

My hosts had lived many years in the locality and knew several of their neighbors, all of whom owned their own houses. I was invited to different social gatherings among them and shortly before I left the place was asked to dine next door, in the very house where I had seen myself standing at the window. I scarcely dared accept the invitation, and yet how could I refuse, for those who had invited me were very dear friends of my hosts? I tried to think of some excuse that would not be considered such, but tried in vain. When informed of the invitation I pretended not to hear, and it was accepted for me, with other guests of my hosts, since we were all invited together.

As the time drew near 1 thought I should make pretense of feeling unable to go, but within me was a secret desire to see if the apparition would come to me there. Between this dread and desire I hesitated till it was time to dress for the evening, then went up to my room in such a state of indecision that when it was announced that it was time to be off I was but half dressed. Mechanically I completed my toilet and, going downstairs, suffered

myself to be led out passively. The room into which we ladies were shown to leave our wraps was on the opposite side of the house from that which stood beside the home of my hosts. This was a relief to me. There was no reason for me to dread the spot where I had seen myself; but, then, a nervous person is not amenable to reason, and I was in a condition of nervous weakness not far from a general breakdown.

With the exception of myself, there was a very homogeneous party, and even I after a glass or two of wine was sufficiently braced to enjoy myself. The dinner passed off so pleasantly and I felt so stimulated by the wine I drank that I began to have a desire to visit that part of the house in which I had seen my counterpart. When we went upstairs for our wraps I ran up ahead of the others and followed the hall in the direction of, the place of the apparition. After turning at an angle I came to a door which I opened and walked into a bedroom. Facing a window which I knew looked out upon the side of the house of my hosts was a pier glass.

Never in my life have I experienced such relief as when the fact occurred to me that I had mistaken my reflection in this glass for myself. No wonder my image started when I started. Closing the door, I darted around the hall, reaching the robing room just as the others came up the

of the mind over the body. I realized that much of my infirmity I had produced on myself and made a resolution to give up doctors and medicine and brooding alike. This I did and gradually became strong again.

A Story That "Old Cush" Used to Tell About Himself.

The late Francis W. Cushman was well named the Abraham Lincoln of the Pacific coast. No man in the house of representatives could command greater attention when he addressed that body than "Old Cush," as he was familiarly called. His wit and humor pervaded every speech, and he seemed to enjoy nothing more than to regale his hearers with experiences wherein the butt of the joke was upon himself.

well remember one cloakroom est sense should have been heard from the lips of the man who, like the great emancipator, was tall, lean, lanky and homely. His style was inimitable. The story is as follows:

"I do not know how it is with my countrymen in general. Some men have strong ambitions. I never had the political ambition that made me desire to be a member of the state legislature or desire to be a governor. but from my earliest boyhood I had a consuming desire to be a member of the great American house of representatives. Down the vista of all my dreams I saw arising the great white dome of the capitol of the only true republic on earth, and I followed that vision from youth to manhood, through sickness and sorrow and misfortune, with an ambition that was as honorable as it was hopeless.

"In the years of my manhood, after pursuing it like a constable on the trail of an absconding debtor, I overtook it. When I reached the capitol of my country my hair was a trifle long and my coat not of the latest cut. but as I started down that long corridor toward the door of the house of representatives looming in front of me, I felt, sir, that God's elect were about to come into their own. To be entirely frank with you, I could feel the earth tremble, conscious of the importance of my tread.

"But unfortunately when I reached the doorway in the capitol they had a couple of guards stationed there to keep out the profane. One of these tellows grabbed hold of me and said: "'Stand back! You can't go in. No-

body but members of congress allowed in there!" "I said, 'If you please, sir, I am a

member.' "'You are a what?'

"'Why,' I said, 'I am a member of congress. My name is Cushman, from the state of Washington.

"He took out a long printed list, ran his finger down it, and said, 'Is your name Francis W. Cushman? "I said, 'That is I.'

"The fellow bowed clear below his garters and said, 'Pass right in, Mr. Cushman.'

"As I went through the swinging door he turned to the other guard and said: 'Jumpin' Jimmeny, Bill! Did you see that? I'll never have the nerve to stop anything else that shows up!"-Ollie M. James in Washington Star.

Be a Good Example. Let us never make the mistake of thinking that our influence counts for nothing, but from this hour determine that we will live our best every min-

Nut Bread.

One-half cupful of sugar, one egg, one teaspoonful of salt, one and onequarter cupfuls of milk, four cupfuls of sifted flour, four level teaspoonfuls baking powder, one cupful of chopped nuts. Beat egg, add sugar, then flour which has been sifted, with salt and baking powder alternately with milk, then nuts. Allow to stand in warm place twenty minutes and bake in moderate oven forty minutes.

Cheese Grisp. cupfuls of rich cheese dry enough to be grated. When melted add a pinch of salt and two tablespoonfuls of tomato ketchup. Serve on toasted thin crackers on warm plates piled high with very hot and crisp potato chips.

IN THE WORLD OF **SPORT**

Don't Forget World's Series Stars of Past.

Photos by American Press Association. BEDIENT AND HERZOG.

Baseball fans are often forgetful of the heroes of the past, and sometimes Cozy rooms and close attention paid to it is well to jog their memories a bit During all the world's series baseball talk we have heard of late very little has been said about the great players who were the bright particular stars of the important contests.

A year ago, for instance, Pitcher Bedient of the Boston Red Sox was the lion of the hour, as it was his twirling that enabled Jake Stahl's bean eaters to defeat the New York Giants, and in the same series Charley Herzog electrified the country by his fielding, base running and batting. The year before "Home Run" Baker broke into immortal fame by pounding Marquard and Mathewson for home runs.

And the great performances "Babe" Adams, Billy Dineen, Bender, Mathewson, Big Ed Walsh, etc., in other years? They should never be forgotten.

In passing it may be observed that up" against one another in world's series contests, this year being the
